

**ACADEMIC  
CURRICULUM VITAE**

**1. Name -Surname:** Prof. Dr. Mutahhar Ulusoy

**2. Title:** Prof. Dr.

**3. Educational Background:**

<b>Degree</b>	<b>Department/Program</b>	<b>University</b>	<b>Year</b>
Bachelor's	Dentistry	University of Ankara, Faculty of Dentistry, Türkiye	1971
Master's	Dentistry	University of Ankara, Faculty of Dentistry, Türkiye	1971
PhD	Prosthetic Dentistry/Dentistry	University of Ankara, Faculty of Dentistry, Türkiye	1974

**4. Master's / PhD Thesis**

**4.1. Master's Thesis Title and Thesis Advisor(s):-**

**4.2. PhD Thesis / Medical Specialty Thesis Title and Advisor(s):** Rehabilitation in Removable Partial Dentures . Advisor: Prof. Dr. İlhan Çuhadaroğlu

**5. Academic Titles:**

Date of Assistant Professorship: -

Date of Associate Professorship: 1979

Date of Professorship: 1986

**6. Supervised PhD Theses:**

**6.2. PhD Theses:**

**Doctorate Thesis Supervised**

**1-A. Kevser Aydın:** The etiology and the problems of microporosity in cast skeleton partial dentures. Ankara University Faculty of Dentistry 1980

**2-Yüksel Türköz:** The importance of indirect retainers for removable partial dentures. Ankara University Faculty of Dentistry 1980

**3-Arife (Öktem) Doğan:** Comparison of tissue and tooth supported partial dentures from the viewpoint of periodontal health. Ankara University Institute of Health Sciences 1983

**4-Nilüfer Denli:** Study on the reactions of acrylic derivatives used as prosthetic material in the oral cavity. Ankara University Institute of Health Sciences 1985

**5-Fatma (Sakaoğlu) Öztekin:** Mechanical evaluation of different type of retainers used in Overdentures, Ankara University Institute of Health Sciences 1988

**6-Vacide Akgök:** Comparison of bilateral and unilateral prosthetic designs used in Kennedy Class 1 cases from the viewpoint of retention and stability. Ankara University Institute of Health Sciences 1992

**7-Murat Yenisey:** Comparison of force distribution of free end removable partial dentures on the supporting tissues made by the usage of different impression techniques using holographic interferometry. Ankara University Institute of Health Sciences 1999

**8-Perihan Oyar:** Effect of different tooth preparations on the stress distribution in metal supported and full ceramic crowns by finite element stress analysis. Ankara University Institute of Health Sciences 2002

**9-Burcu Avcı:** The comparison of the specification of force distribution of three types of precision attachments used in Kennedy Class III partially edentulous arches Ankara University Institute of Health Sciences 2003

**10-Değer Ergin:** The evaluation of various implant connection types from the viewpoint of force transmission Ankara University Institute of Health Sciences 2005

**11- Emre Şeker:** Investigation of stress distribution on implant supported fixed prosthetic restorations applied on grafted and non grafted posterior maxilla using three dimensional stress analysis method. Near East University Institute of Health Sciences 2011.

**12- Yılmaz Sevcan Kurtulmuş:** Comparison of different zirconia full ceramic systems from the viewpoint of translucency and color. Near East University Institute of Health Sciences 2011.

**13- Kemal Çoğalan:** Invitro stress distribution evaluation of different prosthesis designs supported by anteriorly located implants in mandibular edentulous cases Ankara University Institute of Health Sciences 2011.

**14- Abulfaz Isayev:** Evaluation of Force Distribution in Surrounding Tissues of implant Supported Overdenture Prosthesis with Different Attachment and Prosthetic Designs in Maxillary Edentulous Patients. Ankara University Institute of Health Sciences 2011.

**15- Selim Günsoy:** Comparison of Internal and Marginal Compatibility of Metal Infrastructures Obtained by Different Methods in Single and Four Member Fixed Restorations. Near East University, Institute of Health Sciences, TRNC. February 27, 2015.

**16-Özay Önöral:** The Effect of Repeated Firing on the Marginal, Axial, Otherwiseoclocal and Occlusal Adaptation of Metal Supported Restorations Produced by Different Techniques.Doctoral Thesis. Near East University, Institute of Health Sciences, TRNC. February 9, 2018.

**17-Burcu Günal:** CAD-CAM Comparison of the translucency of monolithic restorations and examination of the effect of cement color. PhD Thesis. Near East University, Institute of Health Sciences.TRNC.10 April 2018.

**18- Çise Özal :** In vitro evaluation of marginal and internal fit of 3- unit monolithic zirconia restorations fabricated using digital scanning technologies. PhD Thesis. Near East University, Institute of Health Sciences.KKTC. 26 May 2022.

**19- Semih Arkoy:** Effect of different surface treatments on repair bond strength of CAD/CAM resin-matrix ceramics. PhD Thesis. Near East University, Institute of Health Sciences. TRNC.27 January 2018.

## 7. Publications

### 7.1. ArticlesPublished in International Peer-ReviewedJournals (SCI,SSCI, AHCI, ESCI, Scopus)

## **10. Administrative Responsibilities**

-Dean of Faculty of Dentistry , Near East University

- Chairman of Department of Prosthetic Dentistry

## **11. Memberships in Scientific and Professional Organizations**

-International Association for Dental Research (IADR)

-Turkish Prostodontics and Implantology Association(TPID)

- Turkish Cypriot Medical Association, Turkish Cypriot Chamber of Dentists

### **13. Undergraduate and Graduate Courses Taught in the Last Two Years**

#### **Courses Taught**

##### **Undergraduate**

Classification of partially edentulous dental arches.

Wax rims, temporary base plates and mounting the dental models on occlusor in removable partial dentures.

The types of Parallelometers, area of usage and principles.

Maxillary major connectors in removable partial dentures.

Biomechanical concepts in removable partial dentures.

Clinical examination for removable partial dentures.

Indications for prosthodontics.

Designing removable partial dentures

##### **Graduate**

Biomechanics in removable partial dentures

Direct retention concepts for removable partial dentures, principles and types of retainers.
