

FACULTY OF DENTISTRY 2021 - 2022 FALL TERM ELECTIVE COURSES

Dear students,

You can find the list of fall term elective courses and their short descriptions in this document. All our elective courses will be instructed online. You will first select the courses you want to register in the Genius system and submit them to your advisor for approval. If the course you have chosen is approved, you must register for the that course on the UZEBİM platform. You should only choose among the courses determined for your class, otherwise the course you take will be deemed invalid. Our Year 2 students will take 2 elective courses in the Fall term and one of the courses will be selected from Group A; the other will be selected from Group B. Our Year 4 students will also take two elective courses; one of these courses will be selected from within-field elective courses listed in Group A, and the other from outside-field elective courses listed in Group B.

You should act quickly to register for the courses where the quotas are limited.

We wish you a successful and healthy academic year.

YEAR 1 ENGLISH PROGRAM / MONDAY 9:00-10:50					
Course Code	Course Name	ECTS	Lecturer	Medium of Instruction	Quota
GEC214	HISTORY OF WESTERN CIVILIZATION	2	PROF. DR. SLOBODAN ILIC	Online	40
GCE241	COMMUNICATION WORKSHOP	2	ASST. PROF. DR. SARVENAZ LUCKINGER	Online	40
YEAR 2 ENGLISH PROGRAM / MONDAY 9:00-10:50					
GROUP A					
Course Code	Course Name	ECTS	Lecturer	Medium of Instruction	Quota

YEAR 1	GEC214	HISTORY OF WESTERN CIVILIZATION	PROF. DR. SLOBODAN ILIC
	The course aims to familiarize students with the historical development of the Western culture and its main concepts from its ancient non-European origins to the modern times. Using related excerpts from literature, philosophy, and political thought, as well as chosen works of art, music and film, the students will be encouraged to develop their own critical attitude on Western culture through free discussion and oral presentations.		
YEAR 2 GROUP A	GEC241	COMMUNICATION WORKSHOP	ASST. PROF. DR. SARVENAZ LUCKINGER
	For the better part of every day, we are communicating to and with others. Whether it's the speech you deliver in the boardroom, the television and social media you are using, or movies or posters you watch it all means something. The Communication workshop will help participants understand the different methods of communication and how to make the most of each of them. These strategies will provide a great benefit for any organization and its employees. They will trickle down throughout the organization and positively impact everyone involved.		
YEAR 2 GROUP B	GEC243	CHILD LANGUAGE ACQUISITION	MELİS ÖZKARA
	This module is an introductory module, exploring how a child starts acquiring language, starting from birth until they start forming full sentences. We will be focusing on the typical development of children and explore how and why young children acquire language in a relatively short space of time and seemingly without extensive assistance. We will look at phonological, lexical and syntactic development in children and some major theories in child language acquisition.		
YEAR 2 GROUP B	EMC101	ENGLISH MEDIA CLUB	BİLUN ALİOĞLU
	This course aims to improve learners' listening and speaking skills. The online course content is presented through YouTube videos on a time-scheduled basis, such as one or two videos per week. The course emphasizes the development of fluency and intelligibility in spoken English. Students will have a chance to participate in a variety of discussions and talk about current events and issues. Through individual and group work activities students will improve their conversational strategies and oral presentation skills. They will learn to communicate effectively explaining their ideas in an organized manner using examples and details to support their viewpoint.		
YEAR 2 GROUP B	GEC249	SECOND LANGUAGE ACQUISITION	MELİS ÖZKARA
	This module is an introductory module, exploring the acquisition of a second language and how the acquisition of a second language differs from the acquisition of a native language. We will be looking at how second languages are acquired by different individuals in different contexts and how one's knowledge of their native language can affect the acquisition of a second language.		
YEAR 2 GROUP B	GEC237	HISTORY OF CULTURE	PROF. DR. SLOBODAN ILIC
	The course aims to familiarize students with the historical development of the Western culture and its main concepts from its ancient non-European origins to the modern times. Using related excerpts from literature, philosophy, and political thought, as well as chosen works of art, music and film, the students will be encouraged to develop their own critical attitude on Western culture through free discussion and oral presentations.		
YEAR 3	GEC209	MEDIATION	NÜKET GÜNDÜZ
	Mediation is a tool for lifelong wellness known as "Win-Win" philosophy; where disputes are negotiated and overcome by common democratic solutions by the parties in conflict. Effective communication, active listening, problem solving, team building, anger control and developing peaceful environment are the fundamental skills under the umbrella of Mediation. Mediation is a process in which a neutral mediator aids the complainants and respondents in their settlement discussions. Globalization has increased the population of multicultural environments in the 21st century which has promoted the importance of mediation in professional work places, in schools, in family matters and also in social interactions. Mediation is applied in disputes and conflicts in the developed countries and is also in the "European Directives" for disputes and conflicts pre court discipline committee sessions. Mediation is a procedure in which the parties discuss their disputes with the assistance of a trained impartial third person(s) who assists them in reaching a settlement. The mediator is a facilitator who has no power to render a resolution to the conflict.		
YEAR 3	GCE326	CORPORATE SOCIAL RESPONSIBILITY	ASST. PROF. DR. KAMİL KANIPEK
	With this course, the concept of corporate social responsibility, scope and development process is aimed to learn. In particular, understanding the importance and purpose of corporate social responsibility projects in the context of public relations is another important issue.		
YEAR 4 GROUP A / WITHIN-FIELD	DEC402	STOMATOGNATHIC SYSTEM	ASST. PROF. DR. MHAMMED SALEH
	Explain the examination steps for the temporomandibular joint. The candidate for the course should be able to describe the normal and physiological movements in the temporomandibular joint. Identify the factors critical to a stable occlusion resulting in the long-term success of general and cosmetic cases, Explain how to identify, prior to treatment, which patients pose a risk of future instability, Determine tooth positioning for veneers, crowns, or implant-supported restorations, Understand how to eliminate porcelain chips and breakage, Utilize checklists for functional-esthetic analysis and treatment planning, Employ diagnostic records for comprehensive diagnosis and treatment planning, Define a thorough examination process and how to implement in practice, How-to design a stable, minimal stress occlusion on teeth or implants.		
YEAR 4 GROUP A / WITHIN-FIELD	DEC404	ADVANCED TECHNOLOGIES IN ENDODONTICS	ASST. PROF. DR. MOHAMAD ABDULJALIL
	Explain the latest technologies developed in Endodontics field. Explain the advanced devices and instruments for root canal treatment. Explain how to use these endodontic devices and instruments in the practical lessons. Learning how to overcome the complications and the disadvantages of the traditional root canal treatment's instruments by the advanced tools.		
YEAR 4 GROUP A / WITHIN-FIELD	DEC406	ORTHODONTIC CASE ANALYSIS	ASSOC. PROF. DR. LEVENT VAHDETTİN
	Cephalometric standards have been useful guidelines in orthodontic diagnosis and treatment planning. The aim of this course is to study the statistical means for the different orthodontic analysis and figure out the treatment plans giving consideration to individual variations due to age, sex, race, and general facial structure.		

	DEC408	STEM CELLS AND THERAPIES - PRACTICAL	ASST. PROF. DR. CENK SERHAN OZVEREL
	The aim of the course is to define the stem cells and describe the current therapeutic strategies by using them. The course would also describe the isolation and the characterization strategies that are gold standard in stem cells. The course would describe the laboratory aspect with demonstration of the steps of isolation.		

YEAR 4 GROUP B / OUTSIDE-FIELD	GCE283	PRINCIPLES OF MARKETING	ASST. PROF. DR. SARVENAZ LUCKINGER
	This course is designed to serve as an introduction to the basic principles of marketing, practices, and the application of these practices. This course examines our present-day marketing system from a managerial point of view and has a current events component to help emphasize the marketing principles in today's business world. Subjects covered include consumers, market research and target markets, feasibility analysis, products, promotion, channels of distribution, pricing, international marketing and use of technology in marketing. The majority of class time will be spent in lecture discussing the various solutions to marketing cases by the application of marketing principles.		
	GCE446	ADVERTISING AND PUBLIC RELATIONS AGENCY MANAGEMENT	ASSOC. PROF. DR. SEVİLAY ULAŞ
	The general aim of the Agency Management course includes the concepts, scope and applications for public relations and advertising agencies. What an advertising agency is, how it works, and what advertising PR campaigns it manages.
