

NEAR EAST UNIVERSITY

FACULTY OF DENTISTRY

2026-2027 ACADEMIC YEAR – FALL SEMESTER

DPC100 1ST YEAR PRACTICAL COMMITTEE

MATERIAL LIST

Dear Students,

In order to participate in the classes conducted in our preclinical laboratories, all students are required to wear **long-sleeved white lab coats**. Students who do not comply with this dress code will not be allowed to attend the classes.

Throughout the Fall Semester, manipulation of soap materials will be carried out. For this purpose, the necessary materials are listed below and supported with visuals.

1. Soap Bars

* 150-200 gr white soap for manipulation of anterior teeth, 200-250 gr for manipulation of posterior teeth (preferably Hacı Şakir brand as it is more suitable for manipulation)

4x150 = 600g

4x200 = 800g

2. Carving Spatulas

Modeling spatula in different sizes, with and without grooves, triangular spatula

3. Plastic Homework Submission Bags (zip-lock refrigerator bag – for every week)
